

HKSI Signs Co-operative Agreement with United States Bowling Congress

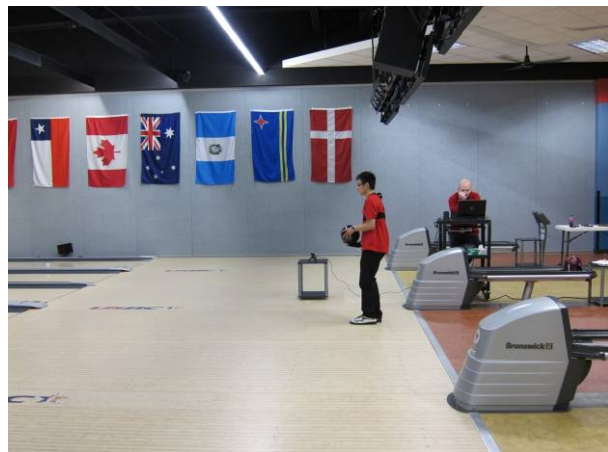

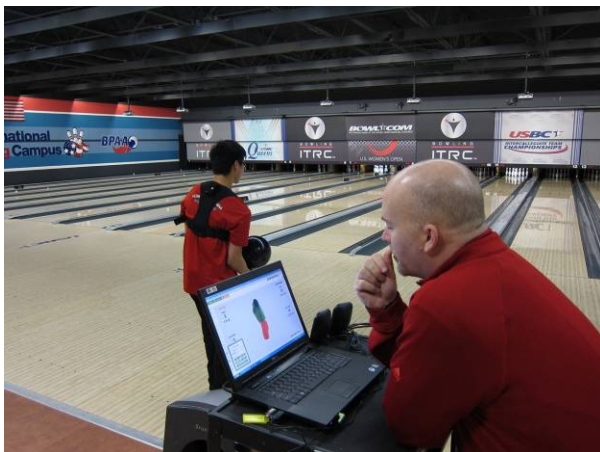

Hong Kong tenpin bowling athletes, Wu Siu-hong (1st from left), Tseng Tak-hin (2nd from right) and Yeung Wai-ki (1st from right) had training earlier this year at the International Training and Research Center (ITRC), which is under the governance of the United States Bowling Congress. The three athletes opined that the training at the ITRC was most rewarding. Second from left in the picture is Bill Hoffman, Director of International Development of USBC.

Hong Kong tenpin bowling athletes, Wu Siu-hong is wearing a pair of infra-red glasses when he bowls so that he knows where his eyes are looking. Even though tenpin bowling athletes seem to be focusing on the target, in that split of a second when they bowl, their eyes may out of focus. The infra-red glasses can help improve their consistency by understanding the usual practice of their eyes and if there are situations of out focus.
